

# HAMZA IQBAL

## Full Stack Developer

+92 310 4065066 | @ hamzaiqbalrajpoot35@gmail.com | Kasur

## SUMMARY

Full-stack MERN developer with hands-on experience building production-grade web applications during a professional internship. Skilled in frontend development, REST APIs, backend logic, databases, and deploying scalable systems. Strong problem-solving abilities with experience delivering multi-module features in both eCommerce and social platform environments. Seeking an entry-level developer role where I can contribute immediately and continue advancing my technical depth.

## PROJECTS

### Fluxmart

11/2025 - 12/2025 Lahore

A MERN stack-based multi-vendor ecommerce platform

- Developed a MERN stack-based multi-vendor eCommerce platform enabling vendors to onboard, manage products, and process orders efficiently while providing customers with a seamless shopping experience.
- Implemented role-based access control to ensure secure and appropriate access for vendors, customers, and admins.
- Built real-time order and cart management features using MongoDB and Node.js, allowing instant updates and smooth workflow handling.

### EchoSocial

11/2025 Lahore

A MERN-based social media platform

- Developed a MERN stack-based social media application enabling users to create posts, comment, like, and follow other users while maintaining secure authentication.
- Built real-time activity feeds and dashboard modules to enhance user engagement and allow admins to monitor platform activity efficiently.
- Implemented responsive UI components using Tailwind CSS.

### Distribution Management System

11/2024 - 07/2025 Lahore

Built Distribution Management System as a Final Year Project.

- Developed a Distribution Management System for Allied Steel Works, managing inventory, purchases, sales, and customer orders in a centralized system.
- Implemented modules for raw material purchases, product inventory, order processing, and customer management with role-based access control.
- Built a responsive frontend using Tailwind CSS, integrated REST APIs for secure data handling.
- Provided exportable reports and analytics dashboards for sales, inventory, and purchases, enabling data-driven business decisions and operational efficiency.
